

Serving Those Who Serve Our Country

Western Governors University (WGU) is proud to offer a flexible, affordable education that fits the needs of America's military service members, veterans, and their families. WGU is a nonprofit, online university offering bachelor's and master's degree programs in the fields of business, K-12 education, information technology, and healthcare. WGU's competency-based learning model allows students to use the knowledge and skills they already possess to progress at their own pace, saving both time and money.

At WGU, we are proud to serve those who serve our country. For more than a decade, WGU has been recognized as one of the best schools for military servicemembers, veterans, and their families.

Total Military-Affiliated Student Enrollment **27,214**

Why Military Students Choose WGU

Affordability

Our programs are approved for all Veterans Affairs GI Bill® programs and Department of Defense Military Tuition Assistance. Because our tuition and fees are so low, military and veteran students often find all their costs covered by their government education benefits. WGU also offers scholarship opportunities for military students and their families. In 2022, WGU awarded more than \$1.75 million in scholarships to military-affiliated students.

Portability

WGU is fully accredited and offers online degree programs that follow students wherever they are stationed or deployed.

Flexibility

While WGU normally serves full-time students, part-time options are available for students using Military Tuition Assistance. And because WGU's programs are competency-based, students are able to move quickly through material they already know so they can focus on what they need to learn.

Individualized Support

In addition to our mentor-based faculty model, WGU supports military students through online peer-to-peer support groups. These groups are monitored by staff who are veterans themselves. And for students who must delay their studies for military duties, reassignment, and/or deployment, WGU has a special policy in place so they can take leave from their studies and return when they are ready.

"WGU prepared me to now lead and inspire the next generation of America's youth who decide to sign their name on the dotted line to serve their country,"

Dion Brown

*Veteran Staff Sergeant, U.S. Air Force
B.S. Business – IT Management, M.S. Management and Leadership*

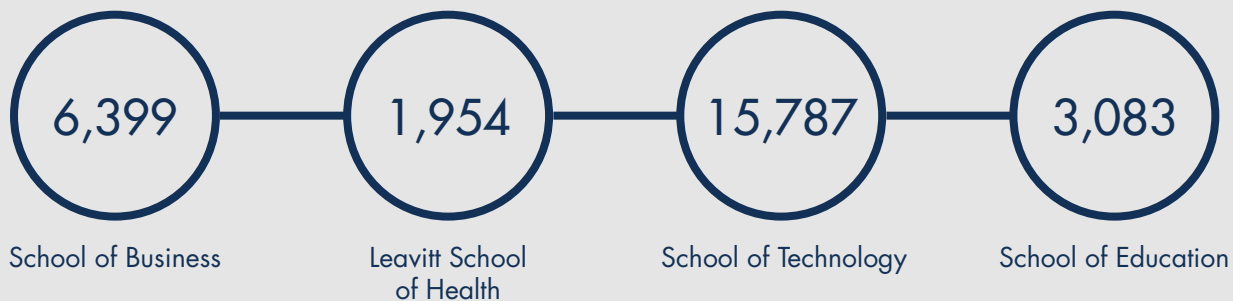

"I wanted to take advantage of the spare time I would have in Kuwait by working on my master's degree. Of course, being halfway around the world with unreliable equipment and internet connections meant that I needed a school that was completely online, accredited, and would work with my schedule. I was so excited to find out that WGU is competency-based. Regardless of where my military career took me, I was able to continue my work toward my degree."

Nathan Siebach

*First Lieutenant, US Army
M.S. Management and Leadership*
